

The Center Valley Projects and Improvements – report update - 1/25/17

The Center Valley Range (directly behind the house) was the one first developed as a shooting venue when we bought the property in 1973. Several different target setups have occurred, with the current berm backstop built in 92. It is now the **Private Training Range** used for Class Training, Staff Practice, and Special events. Its use is RESTRICTED and by appointment only. This year you'll see these changes....

Range Release Paperwork Sign Up Barrel & IC Warning	Done
The construction of a private drive across the valley for equipment transfer	Ongoing
Steel and RR Tie back stop berm at 50 yards (1992),	Done
Various Pistol suitable steel target plates (1983),	Done
