

# TOP GUNS DAY

There has been a change in plans for September 20<sup>th</sup>.

Top Guns is actively working to build a **NEW Indoor Shooting Range** on South Third Street. It will be located in the old Furniture store across the road from their current Ellis Plaza Location. They now own the property and are developing the construction/remodeling plans while finishing the huge amount of paperwork required for such a large project.

The venture will offer the Wabash Valley a Magnificent Shooting Facility, plus an expanded Gun Store, and other related businesses all within one location, under one roof, and in a climate controlled environment, avoiding those Bitter Cold, Extremely Hot, or Soaking Wet range outings. We at ProTEQ look forward to this excellent expansion of the shooting opportunities in the area and support Top Guns in their effort.

Unfortunately all the obligations and responsibilities that Steve has been shouldering for this project necessitate the cancellation of the Top Guns Day Fall Event previously scheduled for 9/20/15.

Top Guns will be back at ProTEQ next Spring, but for now they need their time and resources focus on their project the --- **NEW Indoor Shooting Range**.
