

ProTEQ Steel Matches

We offer two styles of Steel Matches in either the South Valley or the Steel Valley. Cost per competitor is \$10 for the first firearm and \$5 for each subsequent firearm used in that evening's match. The two match styles are offered on alternating weeks. Registration begins at 5:45pm. Safety meetings occur at 6:10pm, and competitions begin about 5 minutes later.

STEEL CHALLENGE SHOOTING ASSOCIATION → SCSA is an internationally sanctioned shooting competition involving preset target arrays shot with centerfire pistol and rimfire caliber firearms. Each competitor shoots each stage up to 5 times, dropping the worst string and averaging the remaining for their stage score. Several different divisions of firearms are allowed to compete. Competitors of all ages are included and some are eligible for different categories. Each competitor's results are then submitted to SCSA's database for classifications.

STEEL TOURNAMENT → Is a Round Robin Tournament, shooter vs. shooter, competition involving either two plate racks or a single shooting tree. It is a smooth and efficiently paced event with new shooters stepping to the firing line every couple minutes. Camaraderie is also present most nights as shooters await their next turn to shoot, making it a relaxing yet competitive event. Centerfire pistol calibers are required for this event (semi-auto, revolver, or PCC).

- For the 6 target plate rack competition, two shooters line up at separate windows each with 12 rounds of ammo split between two magazines or two speed loaders. At the buzzer each shooter engages their rack, with the first cleared rack winning. Then the next shooters step up with more shooters ready on deck and in the hole. The majority of the STEEL TOURNAMENTS are this variation.
- Sometimes the STEEL TOURNAMENTS use the Dueling Tree. Two shooters line up each with 12 rounds of ammo split between two magazines or two speed loaders. At the buzzer each shooter engages the Dueling Tree starting with three plates on each shooter's side. The first cleared side wins. The tree is then reset and the next shooters step up with more ready on deck and in the hole.

Follow our calendar at ProTEQ.Range@gmail.com to keep track of which match is being hosted each week. Or give us a call or email and we'll assist you.
